3. DTD Validation	1
Sheet B	1

Sheet A

1. First draft of XML Document

The document follows the structure below:

```
<movies>
  <movie availability="prime">
    <title>Title</title>
    <release>Year</release>
    <country>Country</country>
    <genre>Genre</genre>
    <director>
      <first_name>Michael</first_name>
      <last_name>Mann</last_name>
    </director>
    <rating>10</rating>
  </movie>
</movies>
```

2. CSS-Stylesheet

The colors are based on the CI of our university. The sheet is named `style.css` and located within the project folder.

3. DTD Validation

For now, the validation is done within the `movies.xml` file.
